JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

and the President requested to appoint a member to prepare an obituary notice of the deceased.

An obituary notice of Dr. Robert Bridges was read by Dr. Ruschenberger.

Mr. Blodget described the transfer of certain manufacturing industries from England to Philadelphia.

Sections of the Anthracite Coal Measures, recently executed by the Geological Survey of the State, were exhibited.

Dr. Frazer exhibited copies of prehistoric hieroglyphs, found in the Puerco San Antonio, Coahuila, Mexico, 25 S. E. of Coahuila, not previously described, sharply cut. Also, his discovery of a granite sacrificial stone, of great weight and age, lying sixty or seventy miles distant from any rock of that kind in the region. Size, 5', 6" by 3', and 4' high; shape peculiarly curved; edges full of fine sharp serrations; weight at least five and a half net tons. A natural ravine cut in the stone would allow the blood to flow off without overflowing the stone. The locality is a narrow mountain pass, which has a history both ancient and modern.

The minutes of the last meeting of the Board of Officers were read and their consideration postponed.

The Committee on Aztec MSS. reported progress.
